Education

Bachelor's in Computer Science | VIT Bhopal University

CGPA - 7.73 | 2022 – 2026

12th Standard | City Montessori School, Lucknow

Percentage - 92.75% | 2021 – 2022

10th Standard | City Montessori School, Lucknow

Percentage - 94.00% | 2019 – 2020

Experience

SDE - 1 | Persist Ventures

January 2024 - August 2025

React JS, Node JS, Express JS, MongoDB, Web Sockets, GenAI, GCP

- Engineered backend for Make Contact, managing 10K+ contacts with real-time updates, secure Google, Apple, and Firebase auth, and smart scheduling via Google Calendar API suggesting event slots with 90%+ accuracy.
- Implemented AI-based recommendations using Groq API for people and events by location and interests, and added voice-based updates and reminders, cutting manual effort by 70% and improving response speed by 40%.

FullStack Web Developer Intern | MP Police Headquarters

December 2024 - February 2025

React JS, Node JS, Express JS, MongoDB

- Built a crime data entry system using the MERN stack, enabling efficient recording and analysis of statewide crime statistics.
- Automated report generation and download, allowing authorized users to export detailed crime summaries for analytical and administrative review.

FullStack Web Developer Intern | BSNL India

October 2024 - December 2024

React JS, Node JS, Express JS, MongoDB, Schedulers

- Architected a multi-role Facility Management System for BSNL, allowing users, vendors, and admins to submit, assign, and track maintenance tasks in real-time, improving operational efficiency by 35%.
- Streamlined reporting and work scheduling, reducing manual oversight by 25% and enabling faster resolution of over 1,200+ monthly maintenance requests.

FullStack Web Developer Intern | SimplySecure

August 2024 - October 2024

React JS, Node JS, Express JS, MongoDB, GSAP, Framer Motion, Nodemailer, Cloudinary

- Revamped the website with real-time content updates and integrated support system, reducing media load times by 30%.

Projects

Stay Heaven | *ReactJS, MongoDB, Node.js, Express.js, Generative AI, Razorpay* | [Link](#), [Github \(Api\)](#), [Github\(Client\)](#)

- Designed and implemented a multi-vendor hotel management platform, integrating secure payment processing, user authentication, role-based access controls, and Socket.io for real-time updates in hotel approvals/rejections, privilege management, and seller dashboards, boosting user engagement by 30% and operational efficiency by 50%.
- Deployed a generative AI-powered chatbot using Gemini, enabling hotel search, bookings, issue reporting, and tracking, enhancing user satisfaction and support.

Browse-Bazaar | *HTML, Vanilla CSS, Tailwind CSS, Javascript, ReactJS, Redux, Strapi, Stripe* | [Link](#), [Github](#)

- Constructed an engaging e-commerce interface with vibrant product displays, trending carousels, and EmailJS integration, boosting engagement by 35% while enhancing product discovery with filtering, recommendations, and real-time search, reducing bounce rates by 20%.
- Streamlined the shopping journey with a user-friendly cart, secure Stripe payment integration, and smooth checkout process, resulting in a 30% improvement in conversion rates.

Technical Skills

Languages - C/C++, JavaScript, TypeScript, Python, Java

Frontend - HTML, CSS, SCSS, React JS, Next.js, Tailwind CSS, GSAP, Redux, Three JS, Framer Motion, Shaden

Backend - Node JS, Express JS, Web Sockets, RestAPI, RabbitMQ, Redis, Next.js

Database - MongoDB, MySQL, PostgreSQL

Additional - AWS, Generative AI, Git, Github, Figma, Docker, Web Scraping

Coursework - Data Structures and Algorithms, Object-Oriented Programming System, Database Management Systems
